 - A. 1.33
 - B. 2.00
 - C. 2.33
 - D. 2.50

9. Company L acquires Company M in a transaction where Company M's shareholders receive \$4 million in cash and 50,000 shares of Company L's stock, which has a market value of \$20 per share. Company M has net assets with a book value of \$3 million and a fair value of \$4.5 million. What is the total cost of the acquisition?
- A. \$4 million
B. \$4.5 million
C. \$5 million
D. \$6 million
10. The foreign exchange rate for the immediate delivery of currencies exchanged is called:
- A. Forward rate
B. Historical rate
C. Spot rate
D. Swap rate
11. Which organization is responsible for setting International Financial Reporting Standards?
- A. IFRS Foundation
B. International Accounting Standards Board
C. IFRS Advisory Council
D. IFRS Interpretations Committee
12. Which of the following cost allocation methods ignores any reciprocal services among support departments?
- A. Reciprocal method
B. Direct method
C. Step-down method and
D. Dual rate method
13. What is the primary purpose of a "capital project fund"?
- A. To account for the routine operating expenses of a government
B. To manage resources dedicated to paying off long-term debt
C. To track financial resources used for acquiring/constructing major capital facilities
D. To invest surplus funds for future use
14. Which of the following is a resource that a business organization owns and possesses the capacity to provide future services or economic benefits?
- A. Capital
B. Assets
C. Liabilities
D. Equity
15. In Activity Based Costing system, costs are first identified/traced to:
- A. An organizational unit and then to product
B. Products and then to activities
C. To product and then to an organizational unit
D. Activities and then to the products
16. On April 1, 2024, ABC Company sells equipment for Br. 250,000. The equipment originally cost \$570, 000, had an estimated 5-year life and an expected salvage value of \$20,000. The accumulated depreciation account had a balance of \$330,000 on January 1, 2024, using the straight-line method. The gain or loss on disposal is
- A. \$27,500 gain.
B. \$27,500 loss.
C. \$37,500 loss.
D. \$37,500 gain

17. Which of the following is an example of a conglomerate business combination?
- A. An airline company acquiring another airline company
 - B. A car manufacturer acquiring a tire manufacturer
 - C. A technology company acquiring a healthcare company
 - D. A retail chain merging with another retail chain
18. After completion of the acquisition or construction of fixed asset, the asset itself will be accounted for in the:
- A. General long-term debt account group
 - B. General fixed asset account group
 - C. General obligation debt
 - D. Debt service fund
19. W/ro Alem rents out a furnished apartment for Birr 12,000 per month. She incurred the following expenses during the year: maintenance - Birr 10,000; depreciation - Birr 18,000; insurance - Birr 4,000. Assuming she does not maintain formal books of accounts. What is her annual taxable rental income?
- A. Birr 144,000
 - B. Birr 112,000
 - C. Birr 72,000
 - D. Birr 40,000
20. Which type of fee structure is generally prohibited for certain professional services provided by a member in public practice, particularly those requiring independence?
- A. A fixed fee agreed upon in advance for the entire engagement
 - B. An hourly rate charged for the time spent on the engagement
 - C. A value-based fee that is tied to the perceived benefits delivered to the client
 - D. A contingent fee that is dependent upon the outcome of the services provided

39. ABC Company wants to undertake job No. 1 during the year 2023. The estimated total manufacturing overhead cost for the year is birr 500,000. The organization uses units of production as allocation base. The estimated units of production and the actual units of the job completed during the year are 250,000 units and 8,000 units respectively. Actual direct materials used by the job is birr 37,500 (from job cost sheet). The Company also actually incurred direct labor cost of birr 32,500 for the job (from the job cost sheet). What is the total cost of the job?
- A. 70,000 birr
B. 86,000 birr
C. 570,000 birr
D. 320,000 birr
40. Capital project fund do not accounts for the acquisition of:
- A. Administrative building
B. Civic centers
C. Libraries
D. Office equipment
41. Adama clothe store had a balance in the account receivable ETB 468,750 and Net credit Sale during the year amounted to ETB 3,000,000. The Average Collection Period of the receivable in terms of days was:
- A. 53 days
B. 365 days
C. 60 days
D. 57 days
42. Which of the following is NOT considered a non-trade receivable?
- A. Advances to officers and employees
B. Oral promises for goods and services sold
C. Dividends and interest receivable
D. Claims against insurance companies for casualties sustained
43. Assume that a company sales equipment for Birr 12,000 that has cost of Birr 15,000 and accumulated depreciation of Birr 2,000. What will be gain or loss on sale?
- A. Birr 1,000 gain
B. Birr 1,000 loss
C. Birr 3,000 gain
D. Birr 3,000 loss
44. Which fund is responsible for accumulating resources to repay the principal and interest on general long-term debt?
- A. General Fund
B. Special Revenue Fund
C. Capital Projects Fund
D. Debt Service Fund
45. If ending inventory of current period is overstated, what would be the effect of this error in the next period?
- A. Cost of goods sold will be understated
B. Beginning inventory will be overstated
C. Net income will be overstated
D. It does not have an effect
46. Which of the following is NOT a characteristic commonly associated with money market instruments?
- A. Short-term maturity
B. High risk
C. High liquidity
D. Close association with money

47. In a joint operation, Belayab Company contributes ETB 800,000 in sales. The joint operation's total sales are ETB 4,800,000. What percentage ownership does Belayab Company have in the joint operation?
- A. 10% C. 20%
B. 16.67% D. 50%
48. Which inventory system continuously updates the Inventory and Cost of Goods Sold accounts?
- A. Periodic Inventory System C. Specific Identification Method
B. Perpetual Inventory System D. Weighted-Average Method
49. Yilma invested ETB 6,200 in Account that pay 5% simple interest. How much money will you have at the end of the 5 year?
- A. ETB 8,710 C. ETB 7,750
B. ETB 9,000 D. ETB 9,678
50. _____ is the work performed by an employee beyond the regular working hours or days.
- A. Desert Allowance C. Overtime Payment
B. Position Allowance D. Transportation Allowance
