- ☐ d. Stimulate creativity in generating alternatives and formulating criteria of evaluation

The advertising agencies play a very critical role in international advertising. Which of the followings are guidelines for selection of advertising agencies?

Select one:

- ☒ a. All of the above
- ☐ b. The expertise of the agency
- ☐ c. The size of the agency and its network of international affiliations
- ☐ d. Informal support

One of the following statement is false?

Select one:

- ☐ a. Recruitment is an activity that takes place in every organization
- ☒ b. Recruitment is a onetime process
- ☐ c. Recruitment is considered to be a positive function
- ☐ d. Recruitment is a two-way process that involves a recruiter and a recruitee

Which one of the following describes what you are going to do in technical terms, such as sample selection and size, data collection method, instrumentation, procedures, and ethical requirements?

Select one:

- ☐ a. Data analysis
- ☐ b. Problem statement
- ☒ c. Research design
- ☐ d. Research objective

Which of the followings are the benefits of flexible manufacturing?

Select one:

- ☐ a. Lower capital investment
- ☐ b. Significant reduction of labor cost
- ☒ c. All of the above
- ☐ d. Better quality product

Which one of the following is not true about properties the mean?

Select one:

- ☐ a. It is affected by extreme values
- ☐ b. Easy to calculate and understand
- ☐ c. All observation involved in its calculation.
- ☒ d. It is not affected by extern value

Which of the following leadership style explain "hands-off management"?

Select one:

- ☐ a. Democratic style
- ☐ b. Autocratic style
- ☒ c. Laissez faire style
- ☐ d. Participatory style

One of the following system of departmentation is a combination of different departmentation systems.

Select one:

- ☒ a. Matrix
- ☐ b. Geographic
- ☐ c. Functional
- ☐ d. Process

Warehousing, transportation and inventory management are aspects of:

Select one:

- ☒ a. Physical distribution
- ☐ b. Channel control
- ☐ c. Agents in the foreign markets
- ☐ d. Distribution policy

One of the following marketing environmental factor is composed of laws, government agencies, and pressure groups that influence and limit various organizations and individuals.

Select one:

- ☐ a. Demographic environment
- ☒ b. Political/legal environment
- ☐ c. Competitive environment
- ☐ d. Economic environment

How much amount of money should be deposited today at a bank with 10 percent interest to be compounded annually for five years to get a 1000 Br after five years?

Select one:

- ☐ a. 454 Br
- ☒ b. 379 Br
- ☐ c. 546 Br
- ☐ d. 621 Br

According to the following theory of leadership
no one trait was common to effective leaders?

Select one:

- ☐ a. Situational
- ☒ b. Democratic leadership
- ☐ c. Behavioral
- ☐ d. Trait theory

True research should attempt to find an unbiased answer to the decision-making problem. This characteristic of research is?

Select one:

- ☐ a. Reproducible
- ☒ b. Objectivity
- ☐ c. Scientific approach
- ☐ d. Relevancy

A transportation problem when there are too few occupied cells to enable all the empty cells to be evaluated is said to be:

Select one:

- ☒ a. Degeneracy
- ☐ b. Unequal supply and demand
- ☐ c. Unacceptable route
- ☐ d. Alternate optimal solution

Which of the followings are true about Organizational Behavior?

Select one:

- ☐ a. Ob is useful for maintaining cordial industrial relations
- ☒ b. All of the above
- ☐ c. Helps us influence organizational events
- ☐ d. Ob uses scientific research to help us understand and predict organizational life

Select one:

- ☒ a. All of the above
- ☐ b. Costs of production
- ☐ c. Company's marketing objectives
- ☐ d. Marketing mix strategies

_____ examines whether the observed change in a dependent variable is indeed caused by a corresponding change in hypothesized independent variable and not by variables extraneous to the research context.

Select one:

- ☒ a. Internal validity
- ☐ b. Construct validity
- ☐ c. External validity
- ☐ d. Reliability

One of the following represents a conscious, deliberate, and systematic effort by an organization to identify opportunities that can be profitably exploited by it.

Select one:

- ☒ a. SWOT analysis
- ☐ b. Idea screening
- ☐ c. Project identification
- ☐ d. Articulation of objective

One of the following strategies of managing political risk this strategy involves recovery of the invested capital along with desired return over a fixed period of time after which the productive asset is sold to the local citizens.

Select one:

- ☐ a. Planned divestment
- ☒ b. Adaptation
- ☐ c. Short-term profit maximization
- ☐ d. Develop local stockholders

Which one of the following marketing concept/philosophy/ holds that consumers if left alone, will ordinarily not buy enough of the organization's products?

Select one:

- ☐ a. Product concept
- ☐ b. Production concept
- ☒ c. Selling concept
- ☐ d. Marketing concept

_____ involved minimal commitment of resources and effort on the part of the international marketer and an easy way of entering the foreign markets.

Select one:

- ☐ a. Management contract
- ☐ b. Contract manufacturing
- ☐ c. Licensing and franchising
- ☒ d. Exporting

One problem in performance appraisal is that the appraiser assesses the individual (either high or low) basing on a single trait/characteristic while ignoring the other traits/characteristics. This problem is referred as_____.

Select one:

- ☐ a. Leniency or strictness effect
- ☐ b. Similarity error
- ☐ c. The central tendency problem
- ☒ d. Halo effect

One of the following is not a ratio under asset management?

Select one:

- ☐ a. Quick ration
- ☐ b. Current ration
- ☒ c. Inventory turn over
- ☐ d. Acid test ratio

One of the following best describes work hard/play hard culture:

Select one:

- ☐ a. Fun and action rule, employees take few risks, quick feedback
- ☐ b. Little or no feedback, bureaucracy
- ☐ c. Big-stakes decisions, high risks, slow feedback
- ☒ d. Take high risks get quick feedback

According to Frederick Herzberg motivation-hygiene theory, presence of hygiene factor will _____.

Select one:

- ☒ a. Increase job dissatisfaction
- ☐ b. Increase job satisfaction
- ☐ c. Decrease job satisfaction
- ☐ d. Decrease job dissatisfaction

Transfer an employee can be made for the following reasons.

Select one:

- ☐ a. There is a shortage of employees in one department or plant because of a heavy demand
- ☒ b. All of the above
- ☐ c. Correction of faulty initial placement of an employee
- ☐ d. The climate may be unsatisfactory for an employee's health

Center-of-gravity technique of the facility location decision is based on the following, except:

Select one:

- ☐ a. Identify coordinates and weights shipped for each location
- ☒ b. Locate facility at center of geographic area
- ☐ c. Based on weight and distance traveled establish grid-map of area
- ☐ d. Choose site with lowest (load x distance)

One of the following measure gives the proportion (or percentage) of the total variation in a dependent variable that is explained by a given independent variable.

Select one:

- ☐ a. Least squares estimates
- ☒ b. Coefficient of determination
- ☐ c. Correlation coefficient
- ☐ d. Degrees of freedom

Strategic management offers the following benefits, except:

Select one:

- ☐ a. It encourages forward thinking.
- ☒ b. It provides a subjective view of management problems.
- ☐ c. It provides a basis for clarifying individual responsibilities.

Which of the following is true about operation research?

Select one:

- ☐ a. It is a scientific approach to decision making
- ☐ b. It is applied decision theory.
- ☒ c. All of the above
- ☐ d. It is a combination of many disciplines

_____ is a graphical representation of the decision making process from decision to state of nature to payoffs.

Select one:

- ☐ a. Decision table
- ☐ b. Decision tree
- ☒ c. Payoff table
- ☐ d. Influence diagram

Which one of the following is basically concerned with creating awareness and giving information about products of a company?

Select one:

- ☐ a. Pricing Strategy
- ☐ b. Promotion Strategy
- ☐ c. Place Strategy
- ☒ d. Product Strategy

_____ implies a derivation, within a hypothetical-deductive theoretical system, of a particular assertion or prediction.

Select one:

- ☐ a. Research question
- ☐ b. Research proposal
- ☒ c. Literature review
- ☐ d. Hypothesis

An optimal solution to a decision variable can take values like 3.5, 1.2, 2.5 etc... regardless of the nature of the item represented by the decision variable. This assumption of linear programming model is_____.

Select one:

- ☐ a. Constraints
- ☐ b. Non-negativity
- ☐ c. Certainty
- ☒ d. Divisibility

Which one of the following statement is true about free flow service layout?

Select one:

- ☐ a. Both increase customer sightlines and exposure to products
- ☐ b. Encourage customer familiarity, are low cost, and good for repeat customers
- ☒ c. All of the above
- ☐ d. Encourage browsing, increase impulse purchasing, are flexible and visually appealing

_____ is a method which is used to anticipate whether or not milestones will be reached on schedule.

Select one:

- ☐ a. Monitoring the financial progress
- ☐ b. Monitoring the physical progress
- ☒ c. Milestone monitoring
- ☐ d. Time chart monitoring

Which one of the following stage of product life cycle is characterized A period of a slowdown in sales growth because the product has achieved acceptance by most of potential buyers?

Select one:

- ☐ a. Decline stage
- ☒ b. Maturity stage
- ☐ c. Introduction stage
- ☐ d. Growth stage

Conflicts can be resolved through playing down differences while emphasizing common interests between the conflicting parties. This technique is known as _____.

Select one:

- ☐ a. Avoidance
- ☐ b. Authoritative command
- ☐ c. Smoothing
- ☒ d. Compromise

what is the value of X_1 and X_2

Maximize $60x_1 + 50x_2$

Subject to

$$4x_1 + 10x_2 \leq 100$$

$$2x_1 + 1x_2 \leq 22$$

$$3x_1 + 3x_2 \leq 39$$

- A. $X_1=9$ and $X_2=4$
- B. $X_1=3$ and $X_2=5$
- C. $X_1=2$ and $X_2=4$
- D. $X_1=5$ and $X_1=3$

Which of the following statements are false about strategy implementation?

Select one:

- ☐ a. Successful strategy implementation centers upon managers' ability to develop an organizational climate conducive to change
- ☐ b. Existing cultural elements that are against to a proposed strategy should be identified and changed.
- ☒ c. Changes in strategy does not require changes in the way an organization is structured

Which of the followings are the functions of statistics?

Select one:

- ☒ a. All of the above
- ☐ b. Adds precision to thinking
- ☐ c. Simplifies complex data
- ☐ d. Guides in the formulation of policies and helps in planning

Which of the following is wrong about the managerial function of planning?

Select one:

- ☐ a. It allows organizations to minimize risk
- ☐ b. It serves as a standards to measure performance
- ☒ c. It just ends as a first managerial function
- ☐ d. It precedes all other managerial functions

One of the following cannot be strategic decision making in production/operation management?

Select one:

- ☐ a. Where to locate a new factory
- ☒ b. How much finished-goods inventory to carry
- ☐ c. The design for a new product's production process
- ☐ d. Whether to launch a new-product development plan

_____ the statistical procedures that are used to reach conclusions about associations between variables.

Select one:

- ☐ a. Descriptive statistics
- ☐ b. Tabulation
- ☐ c. Central tendency
- ☒ d. Inferential statistics

What is the probability that a random sample of four tyres fitted to a vehicle will have a mean legal lifetime is between 22,500 and 24,500 miles?

Select one:

- ☒ a. 0.8870
- ☐ b. 0.1170
- ☐ c. 0.4149
- ☐ d. 0.9893

Entrepreneurship involves changing, revolutionizing, transforming, and introducing new approaches. This characteristics is_____.

Select one:

- ☐ a. Goal-oriented activity
- ☐ b. A function of risk bearing
- ☒ c. Value creation
- ☐ d. Entrepreneurship involves innovation

One of the following information to develop transportation model?

Select one:

- ☐ a. Supply quantity (capacity of each origin)
- ☐ b. Unit transportation cost for each origin - destination route
- ☐ c. Demand quantity of each destination
- ☒ d. None of the above

For the entrepreneur starting a new venture, a business plan has the following benefits, except:

Select one:

- ☒ a. None of the above
- ☐ b. It presents the approach the entrepreneur plans to take to exploit the opportunity
- ☐ c. It identifies the factors that will most likely determine the success of the venture.
- ☐ d. It identifies the nature and the context of the business opportunity

_____ specifies the procedure for finding the probability of an intersection of outcomes.

Select one:

- ☒ a. Mutually exclusive events
- ☐ b. Addition rule
- ☐ c. Conditional Probability
- ☐ d. Multiplication rule

A consumer's behavior is influenced by such social factors as reference groups, family and roles and statuses. These factors refer to _____.

Select one:

- ☐ a. Personal factor
- ☐ b. Cultural factor
- ☒ c. Social factor
- ☐ d. Psychological factor

Which one of the following is incorrect about the use of Dummy activity in network diagram?

Select one:

- ☐ a. Keep the logical sequence of activities and their interrelationships correct.
- ☐ b. It maintain a unique numbering system for the different activities
- ☐ c. It is an artificial activity introduced in a network
- ☒ d. It consume time and resource

One of the following statement cannot be true about objectives of human resource management?

Select one:

- ☐ a. Ensures cost-effective utilization of human resources
- ☐ b. Helps to maintain an adequate organizational structure
- ☒ c. It recognizes and satisfies organizational goals only.
- ☐ d. Continuously develops employees through training and other opportunities

Identify the correct statement about training and development:

Select one:

- ☐ a. Training has long-term orientation
- ☐ b. Training aimed at transferring conceptual and theoretical knowledge
- ☐ c. Development transfer technical and operational knowledge
- ☒ d. Development targets managers

One of the following models of change emphasized on the fact that organizations should vary their change strategies in accordance with the environmental changes.

Select one:

- ☐ a. Emergent model of change
- ☒ b. Contingency model of change
- ☐ c. Planned model of change
- ☐ d. Minitzberg and Quinn's model of change

Product development for global markets should give emphasis for the following issues?

Select one:

- ☐ a. Customs and habits
- ☐ b. Test market aspects of the process in the target market
- ☒ c. All of the above
- ☐ d. Legal requirement
