Flag question

Look at the following fragment code:

```
int a = 6;  
int b = 5;  
while(a > b)  
{  
    cout << "Computer Science program" << endl;  
}
```

Which algorithm property is not satisfied by the above C++ code algorithm?

- ☐ a. Definiteness
- ☐ b. Finiteness
- ☒ c. Feasibility
- ☐ d. Sequential
