Flag question

Assume it is given that $f(n) = 2n \log 2n$ and $g(n) = n^2$, then which asymptotic notation is correct?

- ☐ a. $f(n) = \Omega(g(n))$
- ☐ b. $f(n) = \text{little-}\omega(g(n))$
- ☐ c. $f(n) = \theta(g(n))$
- ☐ d. $f(n) = \text{little-oh}(g(n))$
