SITE Model Exam

Question **100**

Not yet answered

Marked out of 1.00

Flag question

You are building a social media platform where users can create posts and comment on each other's posts. Each post can have a variable number of comments, and users can add, delete, and reorder comments on a post. Which data structure would you use to represent the comments on each post and efficiently support these operations?

Select one:

- a. Stack
- b. Queue
- c. LinkedList
- d. Arrays
