

Which one of the following should be the marketing challenges?

- ☐ a. The information technology boom
- ☐ b. Environmental decline
- ☐ c. Rapid globalization
- ☐ d. political and social problems
- ☒ e. All 

What is the primary focus of operations management?

- ☐ a. Developing marketing strategies
- ☐ b. Managing the financial resources
- ☒ c. Overseeing the production and distribution of goods and services ✓
- ☐ d. Hiring and training employees

The correct answer is: Overseeing the production and distribution of goods and services

Mr. Elias has the basic knowledge of the steps to take in deciding whether to buy a company's stock based on guideline. What types of knowledge he is applying?

- ☒ a. Tacit ❌
- ☐ b. Explicit
- ☐ c. Unspoken
- ☐ d. Implicit

Part of a business plan that contains the forecasts of Balance sheets, Income statements, and Statements of cash flows:

- ☐ a. Operation plan
- ☐ b. Market plan
- ☐ c. Management plan
- ☒ d. Financial plan ✓

The process whereby a manager shares his work and authority with his subordinates' is_____.

- ☐ a. Decentralization
- ☐ b. Responsibility
- ☒ c. Delegation ✓
- ☐ d. Decision making

_____ refers to a set of personality traits, needs, and other factors likely to be related to political behavior.

- ☒ a. Individual factor ✓
- ☐ b. Group factor
- ☐ c. Organizational factor
- ☐ d. NONE

What is the main purpose of making external business environment audit during strategy formulation:

- ☐ a. It must involve as many managers and employees as possible
- ☒ b. To identify rival firms and determining their strengths, weaknesses, capabilities, opportunities, threats, objectives, and strategies ✗
- ☐ c. To develop a finite list of opportunities that could benefit a firm and threats that should be avoided
- ☐ d. To develop a list of strengths that could benefit a firm and weaknesses that should be avoided
- ☐ e. All

The correct answer is: To develop a finite list of opportunities that could benefit a firm and threats that should be avoided

Among the following theory of motivation which one is different from other?

- ☐ a. Vroom expectancy theory
- ☐ b. Herzberg two factor theory
- ☐ c. Adams equity theory
- ☒ d. Edwin Locke goal theory ❌
- ☐ e. None

The correct answer is: Herzberg two factor theory

Which of the following is not a typical HRM issues?

- ☐ a. Staffing
- ☒ b. Marketing ✓
- ☐ c. Training
- ☐ d. Payments

_____ Measure of the percentage of people in the target market who are exposed to the ads

- ☒ a. Frequency ✖
- ☐ b. Impact
- ☐ c. Reach
- ☐ d. None

The price effect can be moderated through one of the following method?

- ☐ a. Financing or credit terms.
- ☐ b. Discounts.
- ☐ c. Bundling or unbundling of the product.
- ☒ d. All of the above ✓
- ☐ e. All except B

Identify the true statement about the above data set

- ☒ a. The distribution is bimodal ✓
- ☐ b. The distribution is unimodal
- ☐ c. it seems clear that there is no mode
- ☐ d. it seems clear that there is no median

Assume you are a human resource manager for ABC Company and want to perform HRP for the company. The result of this HRP shows that the future human resource requirement of the company is more than the current human resource supply. Which one of the following will not be the action to be taken to resolve the problem as a human resource manager of the company?

- ☒ a. Lay-off. ✓
- ☐ b. Promotions
- ☐ c. Overtime Work
- ☐ d. Part time work.
- ☐ e. Hire staff from outside

Which one of the following is the reason for evaluation of training and development program?

- ☐ a. To increase the effectiveness of the next program
- ☐ b. To increase the effectiveness of the program while it is going on
- ☐ c. To give feedback to participants to improve their efficiency
- ☒ d. All ✓
- ☐ e. None

The correct answer is: All

Which one of the following is the most powerful competitive force in the business environment?

- ☒ a. Rivalry among competing firms 
- ☐ b. Potential entry of new competitors
- ☐ c. Potential development of substitute products
- ☐ d. Bargaining power of suppliers
- ☐ e. Bargaining power of consumers

According to Charles Babbage, division of labor;

- ☐ a. Improve skills of workers
- ☐ b. Reduce learning time
- ☐ c. Reduce expenses
- ☒ d. All ✓

The correct answer is: All

If a company's required rate of return is 10% and, in using the net present value method, a project's net present value is zero, this indicates that the

- ☐ a. Project's rate of return exceeds 10%.
- ☐ b. Project's rate of return is less than the minimum rate required.
- ☒ c. Project earns a rate of return of 10% ✓
- ☐ d. Project earns a rate of return of 0%.

The correct answer is: Project earns a rate of return of 10%.

QUESTION 18

Correct

Mark 1.00 out of 1.00

🚩 [Flag question](#)

Which of the following is not the characteristic of project?

- ☐ a. Unique
- ☒ b. Rigid ✓
- ☐ c. Teamwork
- ☐ d. Limited life

Cost-profit-volume analysis is used in location decisions to

- ☐ a. Determine the environmental impact of a new location
- ☒ b. Evaluate the financial feasibility of a location based on estimated costs 
- ☐ c. Assess the cultural fit of a potential location with the company's values
- ☐ d. Calculate the transportation costs for different location scenarios

Which one is not a mandatory factors affecting product modifications?

- ☐ a. Government's mandatory standards
- ☐ b. Electrical current standards
- ☐ c. Measurement standards
- ☒ d. Physical distribution ✓
- ☐ e. AI

Time value of money indicates that

- ☒ a. A unit of money obtained today is worth more than a unit of money obtained in future. ✓
- ☐ b. A unit of money obtained today is worth less than a unit of money obtained in future.
- ☐ c. There is no difference in the value of money obtained today and tomorrow
- ☐ d. None of the above

Which strategic management process is challenging:

- ☐ a. Strategic evaluation
- ☐ b. Strategic control
- ☐ c. Strategic formulation
- ☒ d. Strategic implementation ✓
- ☐ e. None

Which of the following activities comes last according to the Baum project life cycle model?

- ☐ a. Investment Stage
- ☐ b. Follow-up Stage
- ☒ c. Evaluation ✓
- ☐ d. Opportunity studies

Salary of employees in a college is normally distributed with mean of 2000 birr which is 10 times the standard deviation of the distribution.

What is the probability that a randomly selected employee will earn b/n 1900 & 2000 birr?

- ☐ a. 0.5
- ☒ b. 0.05 ✗
- ☐ c. 0.3085
- ☐ d. 0.19146

----- refers to the degree to which jobs within the organization are standardize

- ☒ a. Formalization ✓
- ☐ b. Organization standard
- ☐ c. Organization structure
- ☐ d. Departmentation

A market entry timing known for its benefit of getting a “first movers advantage”

- ☒ a. Early entry ✓
- ☐ b. Parallel entry
- ☐ c. Late entry
- ☐ d. None of the above

All of the following are external forces that affect the human resource management functions except;

- ☐ a. Economic forces
- ☐ b. Political legal forces
- ☒ c. Company policies ✓
- ☐ d. Technological forces
- ☐ e. Cultural forces

which one of the following is/are not external failure factors of small business

- ☐ a. Economic business cycles
- ☐ b. Fluctuating interest rates
- ☒ c. Experience ✓
- ☐ d. Political situation

Identify the reason why change is needed;
due to

- ☐ a. To resolve faults in the current system
- ☐ b. To enhance the current systems through including the new feature
- ☐ c. To anticipate the future needs
- ☒ d. All ✓
- ☐ e. None

Identify the characteristics functional conflict

- ☐ a. Conflict can't develop team spirit within the group members
- ☐ b. Individual goals are relegated to primary position
- ☒ c. Conflict leads to innovation and creativity 
- ☐ d. All
- ☐ e. None

In LPP simplex method to convert $<$ inequalities into equations:

- ☐ a. Assume them to be equations
- ☐ b. Add surplus variables
- ☒ c. Add slack variables ✓
- ☐ d. Subtract slack variables.

A type II error occurs when:

- ☒ a. the null hypothesis is incorrectly accepted when it is false 
- ☐ b. the null hypothesis is incorrectly rejected when it is true
- ☐ c. the sample mean differs from the population mean
- ☐ d. the test is biased

Which layout strategy is often used to handle bulky or heavy products?

- ☐ a. Process layout
- ☐ b. Product layout
- ☒ c. Fixed-position layout ✓
- ☐ d. Cellular layout

When we use Hurwitz criteria of decision making we have to:

- ☒ a. Multiply the maximum payoffs in each alternative with degree of optimism. ✓
- ☐ b. Multiply the maximum payoffs in each alternative with degree of pessimism.
- ☐ c. Multiply the maximum payoffs in each state of nature with degree of optimism
- ☐ d. Multiply the minimum payoffs in each alternative with degree of optimism

The correct answer is: Multiply the

Strategy implementation includes the following Management issues except:

- ☐ a. Establishing Annual Objective
- ☒ b. Positioning forces before the action ✗
- ☐ c. Allocating Resources
- ☐ d. Altering Existing organizational Structure
- ☐ e. None

Management information systems (MIS)

- ☐ a. create and share documents that support day-today office activities
- ☐ b. process business transactions
- ☐ c. capture and reproduce the knowledge of an expert problem solver
- ☒ d. use the transaction data to produce information needed by managers to run the business 

Which one of the following is not the characteristic of a mission statement?

- ☐ a. It should be expressed in a small number of words, with up to 100 words
- ☐ b. It should be Inspiring
- ☐ c. It should reveal as the firm is environmentally and socially responsible
- ☒ d. It should include monetary amounts, numbers, or objectives 

The primary questions in Process Selection include all of the following EXCEPT

- ☐ a. How much variety will the process need to handle?
- ☐ b. What is the expected volume of output?
- ☒ c. What is the budget for employee training? 
- ☐ d. How much volume will the process need to handle?

The correct answer is: What is the budget for employee training?

_____ includes the activities of designing and producing the container or wrapper for a product?

- ☒ a. Packaging ✓
- ☐ b. Labeling
- ☐ c. Branding
- ☐ d. All of the above

A _____ is the specification of methods and procedures for acquiring the information needed to structure or solve problems.

- ☐ a. Research Problem
- ☐ b. Research Hypothesis
- ☒ c. Research Design ✓
- ☐ d. Research Data

The 'Cost of Quality' includes which of the following costs?

- ☐ a. Prevention costs
- ☐ b. Appraisal costs
- ☐ c. Internal failure costs
- ☒ d. All of the above ✓

According to Hersey and Blanchard model of leadership, the leadership style which is best matched with a low followers' readiness level is

- ☒ a. Directing ✓
- ☐ b. Coaching
- ☐ c. Supporting
- ☐ d. Delegating

If project A has a lower payback period than project B, this may indicate that project A may have a

- ☐ a. Lower NPV and be less profitable.
- ☐ b. Higher NPV and be less profitable.
- ☒ c. Higher NPV and be more profitable. ✓
- ☐ d. Lower NPV and be more profitable

The correct answer is: Higher NPV and be more profitable.

Which one of the following is the disadvantage of North West corner method?

- ☐ a. It is complicated to use.
- ☒ b. It didn't take into account the shipping cost 
- ☐ c. It considers transportation cost
- ☐ d. All of the above.

The correct answer is: It didn't take into account the shipping cost

The fundamental assumption people share about organization value, belief and norms is called_____.

- ☐ a. Organizational behavior
- ☒ b. Organizational culture ✓
- ☐ c. Organizational design
- ☐ d. Organizational structure

One among the following measures of central tendency can be inflated by extreme values

- ☒ a. Median 
- ☐ b. Mean
- ☐ c. Variance
- ☐ d. Range
- ☐ e. None

Banks, insurance companies and distribution agencies are examples of ____.

- ☒ a. departmentation by function ✖
- ☐ b. departmentation by products
- ☐ c. departmentation by territory
- ☐ d. departmentation by customers

Which of the following tests are used to test for normality?

- ☐ a. A t-test and an ANOVA test
- ☐ b. An F-test
- ☒ c. A Chi-Square test ✓
- ☐ d. None

Suppose that you select the first unit at random, the rest being automatically selected according to some predetermined pattern involving regular spacing of units. Which sampling method is it?

- ☐ a. Simple random sampling
- ☒ b. Systematic random sampling ✓
- ☐ c. Cluster random sampling
- ☐ d. Stratified random sampling

The correct answer is: Systematic random sampling

Leadership is all of the following. Except,

- ☐ a. Leadership is not primarily a formal position
- ☐ b. Leadership is not primarily a set of behavior
- ☐ c. Leadership is about influencing others and setting directions
- ☒ d. None ✖

The correct answer is: Leadership is not primarily a set of behavior

_____ refers to a small groups of people brought together and guided by a moderator through an unstructured, spontaneous discussion for the purpose of gaining information relevant to the problem.

- ☐ a. Experience Survey
- ☐ b. Case Analysis
- ☒ c. Focus Groups ✓
- ☐ d. Observational study

When a capital budgeting project generates a positive net present value, this means that the project earns a return higher than the

- ☐ a. Internal rate of return.
- ☐ b. Annual rate of return.
- ☒ c. Required rate of return. ✓
- ☐ d. Profitability index.

Industrial disputes because of demand for higher wages, dissatisfaction with the method of job evaluation, faulty incentive schemes, and lack of promotional avenues can be considered as:

- ☐ a. Psychological cause
- ☐ b. Physical cause
- ☒ c. Economic cause ✓
- ☐ d. Organization cause

_____divides buyers into groups based on social class, lifestyle or personality characteristics.

- ☐ a. Demographic segmentation
- ☐ b. Geographic segmentation
- ☐ c. Psychographic segmentation
- ☒ d. Behavioral segmentation ❌

The correct answer is: Psychographic segmentation

Aggregate Planning is concerned with

- ☒ a. Determining the quantity and timing of production for the intermediate future. ✓
- ☐ b. Long-term capacity planning.
- ☐ c. Daily production scheduling.
- ☐ d. Hiring and firing of employees.

The correct answer is: Determining the quantity and timing of production for the intermediate future.

Which one of the following is true about Program Evaluation And review technique (PERT)?

- ☐ a. It uses multiple time estimates.
- ☐ b. It is probabilistic model.
- ☐ c. It is used for non-repetitive tasks.
- ☒ d. All ✓

Which one of the following is not the objectives of recruitment functions?

- ☐ a. Increase the success rate of selection process.
- ☐ b. Search the best talents for the vacancies.
- ☐ c. It can achieve cost efficiency.
- ☒ d. All 
- ☐ e. None

Information on the human attributes in terms of education, skills, aptitudes, and experience necessary to perform a job effectively is

- ☐ a. Job evaluation
- ☒ b. Job specification ✓
- ☐ c. Job description
- ☐ d. Job analysis

The transportation problem deals with the distribution of :

- ☒ a. A single product from several source to several destinations ✓
- ☐ b. A single product from a source to several destinations.
- ☐ c. A single product from several sources to a destination
- ☐ d. A multiple product from several sources to a destination
- ☐ e. None.

_____ is a legal definition of ideas, inventions, artistic works and other commercially viable products created out of one's own mental processes.

- ☐ a. Business plan
- ☒ b. Intellectual property ✓
- ☐ c. Business ownership
- ☐ d. All of the above

_____ is the first step in the research process is:

- ☐ a. Searching online or offline
- ☒ b. Identification of problem ✓
- ☐ c. Idea screening and concept development
- ☐ d. Data collection

In Which type of marketing management philosophy businesses concentrate on achieving high production efficiency, low costs, and mass distribution.

- ☒ a. The production concepts ✓
- ☐ b. Product concept
- ☐ c. Selling concept
- ☐ d. Marketing concept
- ☐ e. The holistic marketing concept

A firm's strengths that cannot be easily matched or imitated by competitors are called:

- ☐ a. Competitive advantage
- ☒ b. Distinctive competencies ✓
- ☐ c. Competitive strategy
- ☐ d. Competitive growth
- ☐ e. None

Descriptive research studies is a category of research that aims to

- ☐ a. Achieve new insights of a concept.
- ☒ b. Analyze characteristics of something. ✓
- ☐ c. Determine the frequency with which something occurs.
- ☐ d. Test the relationship between variables.

Which one of the following is the importance of grievance handling?

- ☐ a. It develops the trust of employees in the organization.
- ☐ b. It helps in developing a committed workforce and improving productivity.
- ☐ c. It helps in addressing employee problems before they become too big.
- ☒ d. All 
- ☐ e. None

Suppose you borrow Br 500,000 to buy a house. If he pays equal installments for 20 years and 10% interest on outstanding balance what will be the equal annual installment?

- ☐ a. Br 58729.84
- ☐ b. Br 64352.86
- ☒ c. Br 53527.75Br 25000 ❌

Project rejected when:

- ☐ a. NPV is positive
- ☒ b. PBP is greater than the maximum PBP
- ☐ c. IRR greater than cost of capital
- ☐ d. D. PI is greater than 1

The last step in preparing an organizational plan is_____

- ☒ a. Establish objectives that must be attained by the organization ✗
- ☐ b. Evaluate alternative courses of action
- ☐ c. Change the plan in to budget
- ☐ d. Conducting the problem identification

The ANOVA test is based on which assumptions?

- ☐ a. the sample are randomly selected
- ☐ b. the population variances are all equal to some common variance
- ☐ c. the populations are normally distributed
- ☐ d. the populations are statistically significant
- ☒ e. B and C ✓
- ☐ f. All of the above

A baseball fan examined the records of a favorite baseball player's performance during his last 50 games. The numbers of games in which the player had 0, 1, 2, 3, and 4 hits are recorded in the table below as a probability distribution

No of hits	0	1	2	3	4
Frequency	14	26	7	??	1

What is the average number of hits per game for the above data?

- ☐ a. 2.5
- ☒ b. 1 ✓
- ☐ c. 3
- ☐ d. 15
- ☐ e. 35

The correct answer is: 1

Which form of business ownership has the advantage of limited liability?

- ☐ a. General Partnership
- ☐ b. Proprietorship
- ☒ c. Corporations ✓
- ☐ d. Co-operatives

A null hypothesis can only be rejected at the 5% significance level if and only if:

- ☒ a. a 95% confidence interval includes the hypothesized value of the parameter ✗
- ☐ b. a 95% confidence interval does not include the hypothesized value of the parameter
- ☐ c. the null hypothesis is void
- ☐ d. the null hypotheses includes sampling error

The correct answer is: a 95% confidence interval does not include the hypothesized value of the parameter

Which one of the following is not true about project appraisal?

- ☐ a. The appraisers will decide whether the project implemented or not.
- ☐ b. A persons involved in projects appraisal are analyst.
- ☐ c. The project is reviewed to conform that it accords with the broad development objectives.
- ☒ d. The appraisers are usually the central economic authorities. ❌

Which of the following best describe
Competitiveness

- ☐ a. The profitability of an organization
- ☒ b. The effectiveness of an organization in the marketplace 
- ☐ c. The number of products an organization offers
- ☐ d. The speed of service delivery

Which one of the following statements is not true about promotion and transfer?

- ☐ a. Promotion is the upward reassignment of an employee in an organization hierarchy, accompanied by increased responsibility, enhanced status, and usually with increased income.
- ☒ b. Transfer involves the moving of employees from one job to another in consideration of status difference. ✓
- ☐ c. Promotion shifting of an employee from a lower position to a higher position.
- ☐ d. Transfer involves the shifting of an employee from one job to another without status difference.
- ☐ e. None

The correct answer is: Transfer involves the moving of employees from one job to another in consideration of status difference.

Which of the following is the correct sequence from general to specific?

- ☐ a. Policy-> development plan ->program ->project
- ☒ b. Development plan-> Policy-> program ->project ✗
- ☐ c. project ->program ->developmental plan-> policy
- ☐ d. Project ->program ->policy-> developmental plan

To get the replacement ratio column in simplex method:

- ☐ a. Divide the second column element with the key number
- ☐ b. First column element of identity is divided by the key number
- ☒ c. Divide the capacity column elements with corresponding key column number ✓
- ☐ d. All

The correct answer is: Divide the capacity column elements with corresponding key column number

The group role explain how other believe you should act in a given situation is;

- ☐ a. Role identity
- ☐ b. Role exception
- ☒ c. Role perception 
- ☐ d. Role conflict

A strategy aimed at producing products and services considered unique industry wide and directed at consumers who are relatively price-insensitive:

- ☒ a. Differentiation ✓
- ☐ b. Cost leadership
- ☐ c. Focus
- ☐ d. Low-cost
- ☐ e. None

_____ is a project which is done with the aim of technical up gradation.

- ☐ a. Rehabilitation project
- ☐ b. Integrating project
- ☐ c. Expansion project
- ☒ d. Modernization project ✓

If your organization used to ship successful products abroad without changes in product formulation, packaging, and advertising, what strategy did your firm utilized?

- ☒ a. Product Standardization ✓
- ☐ b. Product Adaptation
- ☐ c. Product Modification
- ☐ d. A and B

Identify the wrong statement about DIKW?

- ☐ a. One can be knowledgeable without being wise.
- ☒ b. Knowledge is knowing when to  use a gun, and wisdom is knowing how to use a gun
- ☐ c. Wisdom is the capability of determining what is wise vs. what is unwise
- ☐ d. Knowledge is the understanding of rules needed to interpret information

What is the primary goal of facility layout design?

- ☐ a. To minimize production time
- ☐ b. To maximize employee satisfaction
- ☒ c. To optimize the flow of materials and people 
- ☐ d. To reduce the cost of machinery

_____ are generally information gathered or generated by the researcher for the purposes of the project immediately at hand.

- ☒ a. Primary data ✓
- ☐ b. Secondary data
- ☐ c. Tertiary data
- ☐ d. Ready-made data

Which of the following is true about a research proposal?

- ☐ a. It presents a problem
- ☐ b. It discusses related research efforts
- ☐ c. It outlines the data needed
- ☐ d. It shows the proposed procedure for data collection and analysis
- ☒ e. All of them **✗**

This is a short-term incentive to customers for more sales like developing coupon, sweepstakes, games, contests, price-offs, demonstrations, premiums, samples, money refund offers, and trading stamps is called_____?

- ☐ a. Advertising
- ☒ b. Sales promotion ✓
- ☐ c. Publicity
- ☐ d. Personal selling

Management is said to be universal, which is described by_____.

- ☐ a. All management principles, practices are found in every organization
- ☐ b. All management principles are found in every organization but not practices
- ☐ c. All management practices are found in every organization but not principles
- ☒ d. All management principles, and practices are found in every business organization ✗

The correct answer is: All management principles, practices are found in every organization

A feasible solution to a linear programming problem:

- ☒ a. Must satisfy all the constraints  of the problem simultaneously.
- ☐ b. Need not satisfy all of the constraints, only some of them.
- ☐ c. Must be a corner point of the feasible region.
- ☐ d. Must optimize the value of the objective function.
- ☐ e. None

The correct answer is: Must satisfy all the constraints of the problem simultaneously.

Fixation of standards, measurement of performance, comparison, and correction of deviation are the steps in_____.

- ☐ a. Planning
- ☐ b. Organizing
- ☐ c. Staffing
- ☒ d. Control ✓

The process of entrepreneurship includes all of the following critical elements except one?

- ☐ a. An acceptance of risk or failure
- ☐ b. An ability to pursue opportunities systematic means
- ☐ c. An ability to pursue opportunities on a sustainable basis
- ☒ d. None of the above ✓

QUESTION 91

Correct

Mark 1.00 out of 1.00
