Flag question

A class called **Network** has been declared. Amongst its members are:

an attribute **maxNumberOfUsers** of type ***int*** that has been declared as private;

an attribute **currentNumberOfUsers** of type ***int*** that has been declared as private;

a method **setMaxNumberOfUsers** that has been declared as ***public*** and requires one parameter of type int;

a method **getMaxNumberOfUsers** that has been declared as ***public***, requires no parameters and returns an ***int***.

A class **SubNet** has been declared with the following header:

class SubNet extends Network

In a program that declares and initializes an object sub of the class **SubNet**, which of the following statements would NOT cause a compiler error?

Select one:

- a. sub.currentNumberOfUsers = sub.getMaxNumberOfUsers();
- b. sub.setMaxNumberOfUsers("3");
- c. sub.setMaxNumberOfUsers(sub.currentNumberOfUsers);
- d. sub.maxNumberOfUsers = 3;
- e. sub.setMaxNumberOfUsers(sub.getMaxNumberOfUsers());
