

Pattern of behavior that a leader uses to influence employees to achieve organizational goals is referred to as:

2. Leadership

b. Leadership style

c. Leadership theory

d. Management

From the following type of research which one helps us to gain familiarity with a phenomenon or to achieve new insights into it?

Hised and

- a. Descriptive research studies
- b. Exploratory research studies:
- c. Hypothesis-testing research studies
- d. Diagnostic research studies

Which one of the following indicates classification of research design based on purpose of the study?

- a Temporal study design
- b. Cross sectional study design
- c. Descriptive study design
- d. Longitudinal study design

Suppose Mr. Abebe is an employee in the human resource management department of XYZ Company and after measuring his performance in the assigned particular task the organization assigns him as a human resource manager of the company in this case which human resource management activity is performed by the organization?

a. Demotion

t. Transfer

c. Promotion

d. Separation

3

Which one of the following shows the demerit of arithmetic mean?

a. It is highly affected by abnormal values in the series

b. It doesn't need arrangement of data

c. It affords a good standard of comparison.

d Its value is always definite or unique

Which of the following is incorrect about planning?

- a. Concerns all managers and levels of management
- b. Leads to accomplishment of objectives at minimum cost
- c. Focus of thinking for things happened in the past:
- d. Lays a foundation for other functions

One of the followings is not the purpose of project identification.

- a. To identify existing gap and its magnitude
- b. To generate useful data and information
- c. Bring to light ideas for potentially viable projects
- d. To accomplish project feasibility studies

Which types of organizational culture emphasizes rules, policies, procedures, chain of command, and decision making?

Time left

- a Entrepreneurial culture
- b. Bureaucratic culture
- c. Market culture.
- d. Clan culture

The future value of \$1, 100,
compounded at the rate of 6%
annually, after 10 years is:

a 1, 790, 85

b. 1,96993

c. 1, 600.00

d. 1, 819, 40

Which one is controllable general factors influencing plant location for all types of organization?

- a. Proximity to markets
- b. Community attitude
- c. Governmental policy
- d. Climate conditions

involves supervision which is essential to make sure that work is performed according to orders and instructions.

a. Planning

b. Directing

c. Controlling

d. Organizing

One of the followings is true.

- a. Intuition-based strategic decision-making is not useful in situations of great uncertainty
- b. Strategic management is all about gaining and maintaining competitive advantage.
- c. Strategic management focuses merely on strategy formulation stage
- d. Strategic planning incorporates all stages of strategic management process.

Your business can only be sustainable in the long run if it works in harmony with the social and natural environment. To understand the relationship between environment and business entrepreneurs must know

- a. How much your business depend on the environment
- b. Used back ward assumptions
- c. Follow few peoples advise
- d. Depend on your own limited skill

Which one of the following statement shows the difference between goods and service?

- a. Services have low customer interaction while goods have high customer interaction
- b. Service operations are subject to low variability of input than manufacturing of goods
- c. Unlike goods, Service is act oriented
- d. Services are usually tangible while goods are intangible

Consider the following transportation problem with three sources and four destinations, the unit cost of transportation is given below.

To From	D_1	O_2	D_3	D_4	Supply
Source 1	19	30	50	10	7
Source 2	70	30	40	60	9
Source 3	40	8	70	20	18
Demand	5	8	7	14	

If you use North West-Corner method to find the initial feasible solution, the total transportation cost of the initial solution is:

a. 1055

To From	D_1	O_2	D_3	D_4	Supply
Source 1	19	30	50	10	7
Source 2	70	30	40	60	9
Source 3	40	8	70	20	18
Demand	5	8	7	14	

If you use North West-Corner method to find the initial feasible solution, the total transportation cost of the initial solution is:

- a. 1055
- b. 1.215
- c. 1,200
- d. 1.015

14-b

Which of the followings is correct about behavioral approach to information systems?

- a. It emphasizes mathematically based models to study information systems.
- b. It emphasizes physical technology and formal capabilities of the systems.
- c. It concentrates on changes in attitudes, management and organizational policy.
- d It ignores issues like strategic business integration, design, and implementation.

Which one of the following is not a critical concern in implementing an international promotion programme?

- a. Methods of determining the resource implications
- b. Use any type of media without analyzing its relevance
- c. Setting the objective appropriately
- d. Selection of persons to undertake the promotion

Which one of the following is not the assumption of linear programming model:

- a. Continuity
- b. None negativity
- c. Negativity
- d. Proportionality

Which of the followings is correct regarding the difference between goal and objective?

- a. Goal must be bounded by time while it is not mandatory for objective.
- b. Quantification & time criteria are mandatory for objective, but not for goal.
- c. Quantification is mandatory for goal while it is optional for objective
- d An objective can have two or more goals for a given period of time.

The factors which are relevant to international business, such as the WTO principles and agreements refer to

- a. Favorable environment
- b. internal environment
- c. Domestic environment
- d. Global environment

Which of the followings is true about project and program?

- a. Project is narrower than program in scope and it can have programs as components
- b. The projection of cost and time for prooram is easier than that of program.
- c. Project is specific and detain while program is comprehensere and goneral ins in
- d. Program is narrower than project in scope and it can have projects as components:

An internal and external factor that influences an organization's marketing activities is known as

- a. Marketing mix
- b. Marketing environment
- c. Marketing process
- d. Marketing concept

All are the Significance of Measuring Correlation, Except one,

- a. To reduce the range of uncertainty of our prediction
- b. Show some kind of relationship across several types of variables
- c. Aids in locating the critically important variables on which others depend
- d. A high correlation is necessarily indicative of a causal relationship between two variables

Which one is an approach to product distribution when products are destined for a large quantity market?

- a. Mass distribution
- b. Speafic distribution
- c. Exclusive distribution
- d. Selective distribution

From the following choices one indicates any difficulty and challenging situation, real or artificial the solution of which requires reflective thinking

- a. Scientific study
- b. Hypothesis testing
- c. Research problems
- d. Research methods

A product designed originally for a local market is exported to other countries with virtually no change, except the translation of words and other cosmetic changes known as

a. Product Standardization

b. Product Differentiation

c. Product Purchasing

d. Product Identification

Financial Management is mainly concerned with:

- a. Profit maximization
- b. All aspects of acquiring and utilizing financial resources for firms activities
- c. Efficient management of every business
- d. Arrangement all organizational resources

describes the variation among values of the members of the population

a. population standard deviation

b. Sample standard deviation

c. Sample standard error

d population Mean

One of the following may not be factors affects pricing policy decision.

- a. Supply and demand variations
- b. Currency fluctuations
- c. Tariff and distribution costs variation
- d. Similarity in cost of goods

Of the following which one is the importance of motivation?

a. Resistance to organizational change

b High employee turnover

c. Low level of performance

d Increase organizational image

is the process of dividing a target market into smaller, more precisely defined groups of consumers or organizations who have common needs.

- a. Market concentration
- b. Product positioning
- c. Market segmentation
- d. Target marketing

Mr Abebe is a manager of Gold water Company and he is concentrated on achieving high production efficiency and Wide distribution by assuming consumers are primarily interested in product availability and low price. Which philosophy is used by Mr. Abebe?

- a. The production Concept
- b. Holistic Concept
- c. Marketing Concept
- d. The Product Concept

Assume that a project enterprise equity, preference, and debt in the proportion of 0.6, 0.3, and 0.1 respectively if the component cost of equity, preference, and debt are 15%, 13% and 11% respectively what is the weighted average of cost of capital?

- a. 13.9%
- b. 14.9%
- c. 13.96
- d. 14%

From the following one is the major area in which valuable innovation might be made

- a. Recognize ideas
- b. Recognize possibilities
- c. Recognize alternatives
- d. New Product

Which of the followings does indicate the main activities of project managers during project implementation?

- a. Evaluate project effectiveness
- b. More action than thinking
- c. More thinking than action
- d. Prepare project road maps

Minimize $Z = 20 \times 1 - 10 \times 2$
 subject to the constraints
 $\times 1 + 2 \times 2 \geq 40, 3 \times 1 + x_2 \geq 30$
 and $\times 1 \times 2 \geq 0$ and corner points
 of the feasible region are as follow
 $= (15, 0), (40, 0), (4, 18)$ and
 $(6, 12)$ Hence the optimal solution to
 the given LP problem is:

- a. $X_1 = 4, X_2 = 18$ and $Z = 260$
- b. $X_1 = 40, X_2 = 0$ and $Z = 800$
- c. $x_1 = 6, x_2 = 12$ and $z = 240$
- a. $X_1 = 15 \times 2 = 0$ and $Z = 300$

Informal Organization makes use of communication.

a. Diagonal

b. Upward

c. Grapevine

d Downward

All the followings are symptoms of an ineffective organizational structure used for strategy implementation, except

- a. Too large a span of control
- b. So many unachieved objectives
- c. Extremely many attended meetings
- d. Optimum levels of management

Which one of the following is true about outcomes of functional conflict?

- a. Job performance may be reduced
- b. Relationships may be damaged
- c. Conflict may cause job stress
- d. Organizational decision making is improved

In hypothesis testing the value of the sample statistic that separates the regions of acceptance and rejection is

- a. indecision
- b. critical value
- c. rejection region
- d. acceptance region

Any form of financial or non-financial payment given to an employee for the service he/she provide to the organization is:

- a. Motivation
- b. Reward
- c. incentive
- d. Compensation

Which one of the followings is a sign of good strategy implementation for a firm?

a. If the firm is meeting or exceeding its performance targets efficiently

b. If the firm performing value chain activities in a manner that disrupts firm operations

c. If it is not leading to the achievement of planned objectives and targets

d. If it messes up the strategic positions of the firm in the industry

Which one of the following statement is true about formal group?

- a. Formed based on commonality of culture, religious function, liking for each other
- b. Exists without any rigid rules and their common interest is bond for existence
- c They represent the human side of an organization
- d Formed based on the work and human resources required by skill and knowledge

Among the following one is the component of job description statement.

- a. Physical characteristics
- b. Psychological characteristics
- c. Personal characteristics
- d. Duties and responsibilities

One is belongs to promotion
marketing mix element.

a. Packaging

b. Location

c. Channel

d. Advertisement

The decision to invest a substantial sum in any business venture expecting to earn a minimum return is

- a. Capital budgeting decision
- b. Financing decision
- c. Working capital decision
- d. Investment decision

Assume that ABC Commercial Bank can do something best that other commercial banks cannot do, and it owns skillful experts and advanced technologies that other banks in the industry desire. These indicate that ABC Commercial Bank has a

- a. Business intelligence
- b. Strategy and policy
- c. Competitive advantage
- d. Mission statement

One of the following is may not be necessary criteria for selecting market entry strategies in international business?

- a. Launching business without detail investigation
- b. Clearly identify of risk factors
- c Costs to include direct and indirect costs
- d. Speed of market entry desired

As a human resource manager of an organization you can appoint the newly selected employees to the job, in this case which human resource management activity do you perform?

- a. Orientation
- b. Selection
- c. Induction
- d. Placement

An action taken against an employee who has violated an organizational rule or whose performance has deteriorated to the point where corrective action is needed is:

- a. Maintenance
- b. Discipline
- c. Grievance
- d. Integration

Assume your staffs are performing routine tasks, they need to understand certain standards and procedures and if you want to perform everything according to procedure or policy, which leadership style is preferable?

a Autocratic

h Bureaucratic

c. Democratic

d. Lazes fair

you want to perform everything according to procedure or policy, which leadership style is pretentle"

- a. Autneratic
- b. Bureancratic
- c. Democratic
- d. Lazes fair

Which of the following is a written statement of the research design that includes a statement explaining the purpose of the study and a detailed and systematic outline of a particular research methodology?

- a Research proposal
- b. Research paper
- c. Research methodology
- d. Significance of the study

Identify the correct statement about training.

- a. It focuses on improving individual's performance in all aspects.
- b It focuses on improving skills for doing a particular task.
- c. It has long term focus for improving skills.
- d. It is not restricted to a particular job

Which one of the following is the factor external to a business enterprise which influences its operations and determines its effectiveness?

- a. External business environment
- b Entrepreneurial Skilis
- c. Wealth of the Entrepreneur
- d. The Entrepreneurial Tasks

Which one is not a reason to, why statistics is required in so many areas?

- a. It used to make decisions
- b. Since it gives always exact information
- c. It gives you a better understanding of how decision affects you
- d. Since numerical information is everywhere

Staffing is concerned with

a. Physical factor

b. Environmental factor

c. Financial factor

d. Human factor

refers to the buying behavior of final consumers those are individuals and households buy goods/services for personal consumption.

- a. Consumer buying behavior
- b. Corporate buying behavior
- c. Business buying behavior
- d. Strategic buying behavior

Which type of utility representing having a product available when you want it?

- a. Time Utility
- b. Form Utility
- c. Possession Utility
- d. Place Utility

Assume your organization have rigid and formalized system and if it is not influenced by technological product and market changes and it maintains a constant pattern, which form of organizational structure is preferable for the given organization?

a. Matrix structure

b. Mechanistic structure

c) organic structure

a. Bureaucratic structure

A human resource activity that is used to determine the extent to which an employee is performing the job effectively is

a Development

b. Compensation

Q. Performance appraisal

d. Human resource planning

Assume Mr. Merga has collected 100 ideas from different sources and he screened and down to 10 ideas to spot good ideas and eliminate poor one. Which one of the following idea screening method is used by Mr Merga?

- a. Micro screening
- b. Sectorial Analysis
- c. Macro screening
- d. Area Annalysis

Which one of the following is an external environmental factor to change?

3. Employee needs

b. Performance change

c. Political and legal environment

d. Nature of the work force

Which of the following not correct about controlling function?

- a. Take corrective action for poor performance
- b. The starting point of management function
- c. Ensuring the actual activities confined to planned
- d. Measure actual performance with the expected

Assume manager interviews job candidates from a pool of applicants; the candidate is likely to receive a better evaluation if interviewed after a low performer applicant, and a worse evaluation if interviewed after a strong applicant, which type of perceptual error is committed by the manager?

- a. Stereotyping
- b. Selective perception
- c. Contrast effect
- d. Projection

Which of the followings is not part of technical analysis of a project?

- a. Analysis of appropriate machines, equipment, and tools
- b. Analysis of employees and management team know-how
- c. Analysis of mentally and physically workability of the project
- d. Analysis of customers past and present needs of the project

When elements in the population have a known chance of being chosen as subjects in the sample which of the following sampling design is used?

- a Non probability sampling
- b Accidental sampling
- c. Probability sampling
- d. Purposive sampling

is the multinational process of planning, pricing, promotion, and distribution of goods, and services to create exchanges that satisfy individual and organizational objectives.

- a. International marketing
- b. Comparative marketing
- c. Domestic marketing
- d. Conventional marketing

Which strategy is the most appropriate strategy for a firm to reduce the threat of supplier bargaining power"

- a. Backward integration
- b. Forward integration
- c. Related diversification
- d. Vertical integration

Pessimistic times and optimistic times of completion of an activity given as 10 days and 4 days respectively the variance of the activity will be:

- a. 10
- b. 1
- c) 12
- d. 6

refers to the process of identifying alternatives and selecting a course of action to solve specific problems.

a. Departmentation

b Decision making

c. Directing

d Selection

If all a_{ij} values in the entering variable column of the simplex table are negative, the solution for a given linear programming problem is said to be:

- a. Degenerate solution
- b. Infeasible solution
- c. Alternate solution
- d. Unbounded solution

-is dealing primarily with operation aspects of the organization and narrower in scope.

a Operation strategy

b. Marketing strategy

c. Finance strategy

d. Organizational strategy

Which of the following can be cited as disadvantages of interviews?

2. It is useful for collecting in-depth information

b. More appropriate for complex situations

d. Questions can be explained

If The researcher may introduce his/her bias

Is the activity set of institutions, and processes for creating, communicating, delivering, and exchanging offerings that have value for customers, clients and society

a Exchange

b. Producing

c. Good/service

d. Marketing

A field of study that investigates the impact of individuals, groups and organizational structure on behavior within the organization is:

- a. Organizational behavior
- b. Team behavior
- c. Individual behavior
- d. Group behavior

Which one is not the advantage of using Chi-Square methods?

- a. It used to analyses (nominat ordinal and intervan) scaling data
- b. easy to apply and quick to compute when sample size is small
- 4. Used if and only if population is distributed normally
- d It requires few assumptions

is the only element of the marketing mix that directly produces revenue for the company.

a. Price

b. Promotion

c. Project

c. Product

Which types of organizational culture emphasizes rules, policies, procedures, chain of command, and centralized decision making?

a. Entrepreneurial culture

b. Bureaucratic culture

c. Market culture

d. Clan culture

FW. Taylor is called as a Father of Management

a. Contingency

b. Neo-classical

c. Classical

d. Scientific

One of the followings is not the purpose of project identification.

Identify existing gap and its magnitude

b. To generate useful data and information

c. Bring to light ideas for potentially viable projects:

d. To accomplish project feasibility studies

Which of the following is incorrect about planning?

- a. Soncerns all managers and levels of management:
- b. Leads to accomplishment of objectives at minimum cost
- c. Forus of thriking for things happened in the past
- d. Lays a foundation for other functions

Which of the following is statistical quality control tool used to monitor changes in the mean of a process?

- a P-charts
- b. Range [®] chart
- c. X-bar chart
- d. C-charts

Which one of the following shows the demerit of arithmetic mean?

3. It is highly affected by abnormal values in the series

b. It doesn't need arrangement of data

c. It affords a good standard of comparison

d. its value is always definite or unique

in a transportation problem, what indicates that the minimum cost solution has been found?

3. All cells in the dummy row are empty

b. All improvement indices are negative or zero.

c. All improvement indices are positive or zero.

d. All improvement indices are equal to zero.

Question.AI

The correct answer is d. All improvement indices are equal to zero.

In a transporta

Time left 02513

126 were sold. At the final clearance, the price was reduced to Birr 100 and the remaining 79 suits were sold. What of the weighted mean price of a suit?

- a. 257
- b. 3555
- c. 11752
- d. 237

The correct answer is option d. 237.
