

90. Which of the following statements is the most accurate description for the concept of Standard deviation?
- The total distance from the smallest score to the highest score.
 - The square root of the total distance from the smallest score to the highest score.
 - The squared average distance between all scores and the mean.
 - The average distance between a score and the mean.
91. A coin is tossed 5 times, what is the probability of getting exactly 3 heads?
- 0.5
 - 0.3125
 - 0.1563
 - 0.03125
92. A university found that 20% of its students withdraw without completing the introductory statistics course. Assume that 20 students registered for the course. What is the probability that two or fewer will withdraw?
- 0.1369
 - 0.2060
 - 0.2054
 - 0.7940
 - None of the above
93. A manufacturer of screws has found that on an average 0.04 of the screws produced are defective. A random sample of 400 screws is examined for the proportion of defective screws. What is the probability that the proportion of defective screws in the sample is greater than 0.05?
- 0.1539
 - 0.3461
 - 0.4793
 - 0.0207
 - None of the above.
94. If we say that $\alpha = 0.10$ for a particular hypothesis test, we are saying that:
- Ten percent is the probability for accepting a hypothesis that is true.
 - Ten percent is the risk we take of rejecting a hypothesis that is true.
 - Ten percent is the risk we take of accepting a hypothesis that is false.
 - A and B only.
 - A and C only.
95. A chi-square value can never be negative because:
- Differences between expected and observed frequencies are squared.
 - A negative value would mean that the observed frequencies were negative.
 - The absolute value of the differences is computed.
 - Only A and B.
 - None of the above.
96. Regression and correlation methods are related to which of the following issues?
- Measuring the rate of change in one variable for a given change in another variable.
 - Bringing out the nature of relationship between any two variables.
 - Evaluating the strength of the relationship.
 - All of the above.
 - None of the above
